

PLC with a built-in HMI

SmartLink
Gateway

Card-type PLC

A8 SmartLink PLC

10 Highlights

- Support the full function of PLC and gateway.
- Download HMI program in gateway and use mobile phone as a monitor.
- Allow remote access for multiple concurrent users without SCADA in the cloud or VNC connection.
- Provide data transmission and data storage in any public or private server.
- Integrate data with ERP, MES or other applications by MQTT, OPC UA, HTTP, TCP and etc.
- Embed the display of HMI in other applications like software, APP and etc.
- Use mobile phone as a scanner to scan barcode and enter information in HMI.
- Apply to data visualization or centralized control on large screen by TVBOX.
- Enable simple connection between gateway, HMI, mobile phone, tablet, computer, TV and camera in local area network.
- Enable simple connection between gateway, HMI, mobile phone, tablet, computer, TV and camera over the Internet.

Model List

| Model | Storage (Flash+RAM) | Max Exp | I/O | LAN | COM | Satellite positioning | WIFI | Wireless Network | Dimension W×H×D(mm) |
|-------|------------------------|---------|------|-----|-----|--------------------------|------|------------------|------------------------|
| A8 | 4G+512M | 15 | 8 DI | 1 | 1+3 | | Yes | | 40×95×69mm |
| A8-G | 4G+512M | 15 | 8 DI | 1 | 1+3 | | Yes | 4G eSIM | |
| A8-E | 4G+512M | 15 | 8 DI | 1 | 1+3 | | Yes | Global 4G | |
| A8-GP | 4G+512M | 15 | 8 DI | 1 | 1+3 | Yes | | 4G eSIM | |

Features

All-in-One design

A8 support the full function of PLC and gateway. A8 provides 8 DI and can expand 15 modules.

Use mobile phone as a monitor

Users can use mobile phone, tablet and desktop as a monitor to control gateway.

Connection in LAN

All models have built-in IIoT technology which enables local access and open interface without internet.

Remote access

With the real-time control solution developed by Haiwell, concurrent users can remotely access HMI by APP and desktop.

Cloud maintenance

It's easier for manufacturers to manage equipments by using remote maintenance function.

Secure access

The remote access needs to be identified by the A/B key security mechanism. The remote control can be configured to be authorized on HMI.

Data security

The user data is not stored in Haiwell cloud. All the data can be stored in private or public server assigned by users.

MQTT protocol

MQTT protocol is supported and applied to the connection with ERP/MES/database.

IoT platform

All models support the connection to Alibaba Cloud IoT, AWS IoT and Google Cloud IoT Core.

Currently supported IOT platforms. Keep updating...

Display integration

The display of HMI can be embedded in other applications such as software, website, APP and etc so that they have remote access to HMI.

Remote centralized control

All the data of remote devices can be acquired through MQTT broker for centralized control. Users don't even need to deploy server if using cloud data center.

Innovative PLC instructions

Users can apply just one instruction to complicated function.

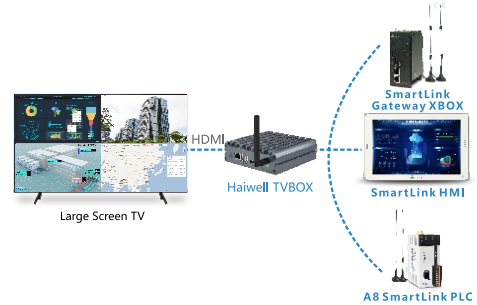

Simple and effective communication

You can use just one instruction to communicate with any other devices.

Digital display board

The production data, device state and video surveillance can be viewed on large screen by connecting with TVBOX. It can be applied to data visualization and centralized control.

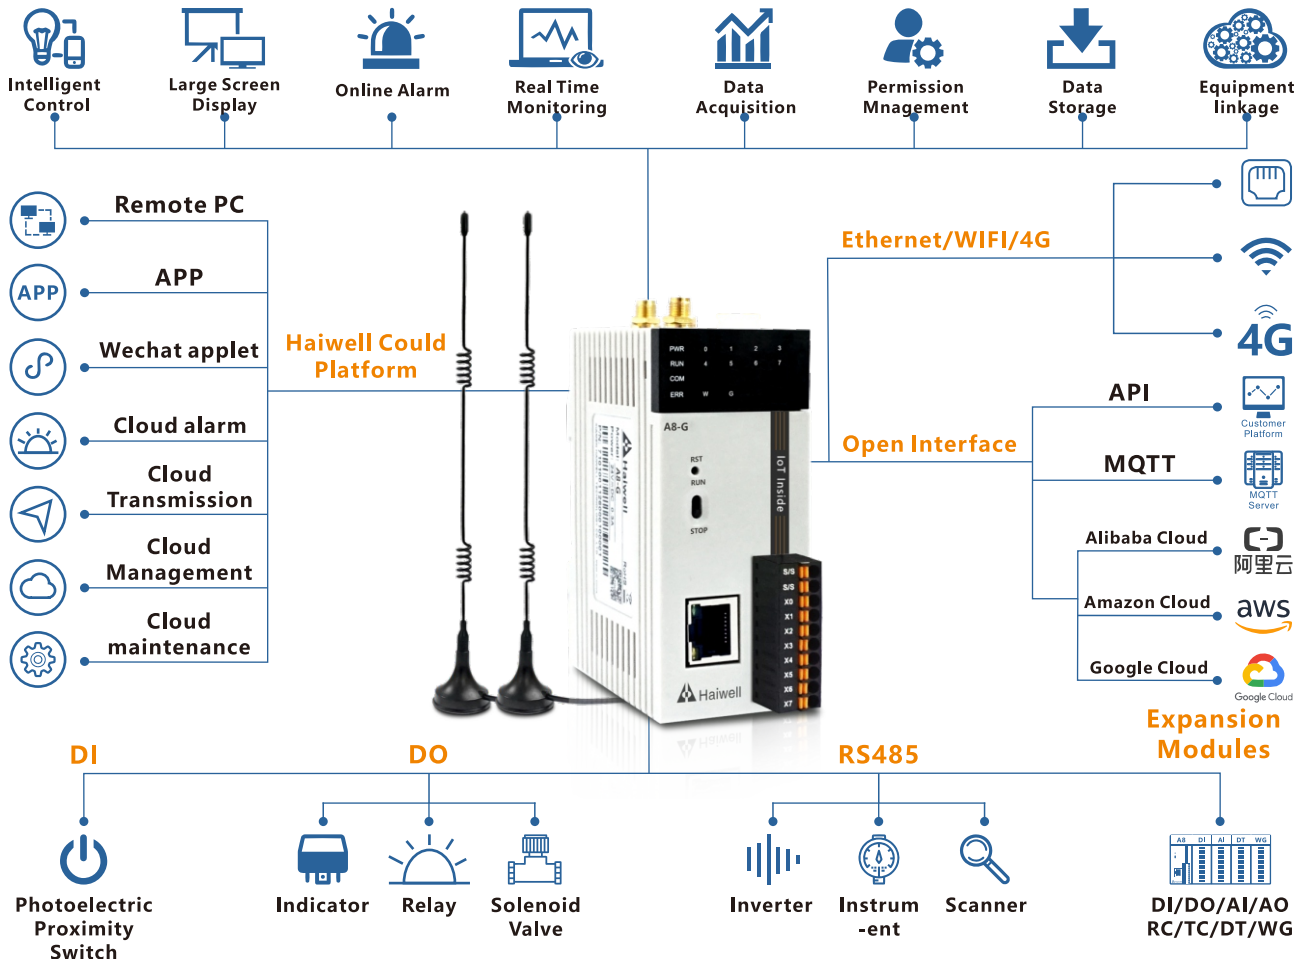

Mobile scanner

You can turn your mobile phone into a barcode scanner and enter information everywhere. It's more convenient than external scanner.

Mobile authentication

The identity of operator can be verified by using NFC recognition or scanning a QR code with mobile phone.

Specification

| | Model | A8 | A8-G | A8-E | A8-GP |
|-------------------|------------------------|---|------------------|-----------|------------------|
| Software | Programming software | HaiwellHappy, Haiwell Cloud SCADA | | | |
| PLC parameters | Working mode | Periodic cyclic scanning | | | |
| | I/O updating | Update in each scan cycle or immediately | | | |
| | Processing speed | 0.05μs / instruction | | | |
| | Programming language | LD+FBD+IL | | | |
| | Program capacity | 48K | | | |
| | Storage | Permanent storage on Flash ROM without batter | | | |
| | Expansion | Support up to 15 modules | | | |
| I/O interface | Storage | Flash 4GB, RAM 512MB | | | |
| | Serial port | Isolated RS485 port * 1 | | | |
| | Ethernet port | 10/100 Base-T * 1 | | | |
| | Factory reset | Yes | | | |
| | Switch S0 | Single pole double throw | | | |
| | WIFI | Yes | | | |
| | 4G | No | China 4G (e-sim) | Global 4G | China 4G (e-sim) |
| | SIM port | No | Micro SIM port | | |
| | I/O port | 8 photoelectric isolated digital inputs | | | |
| | Power | Rated input power | 24VDC±20% | | |
| Power consumption | | < 8W | | | |
| Power protection | | Surge protection | | | |
| Withstand voltage | | 500V AC | | | |
| Environment | Temperature & Humidity | Operating temperature: -10~+60℃ ; Storage temperature: -20~70+℃ , Relativehumidity: 10~90%RH (Non-condensing) | | | |
| | Vibration resistance | 10 - 57Hz: 0.075mm, 1G, 10 times in each of X,Y or Z direction | | | |
| | Impact resistance | 15G, 11ms, 6 times in each of X,Y or Z direction | | | |
| | Insulation resistance | 50MΩ @500VDC or more | | | |
| | Protection grade | Pass 48-hour salt spray test | | | |
| | Cooling method | Natural air circulation | | | |
| Structure | External dimensions | 40mm*95mm*69mm (W*H*D) | | | |
| | Material | ABS and PC (flame-retardant) | | | |
